

Banking That Helps You Breathe Easier!

We wanted a trusted partner to handle our banking needs so we could concentrate on our patients. And we hoped they'd share a healthy respect for our community.

Jonathan Sparling, our Independent Bank loan officer, understands both our medical-surgical practice and our commitment to improving patients' lives. With cutting-edge solutions unmatched by larger national banks, he and his team have helped us flourish.

Independent Bank takes the worry out of banking. And these days, that's nothing to sneeze at!
