

Whether you are a single practitioner, a hospital or somewhere in between, Independent Bank provides a wide spectrum of on-call, customized banking solutions tailored to your sophisticated personal and business banking needs.

// Independent Bank recognized my unique banking, borrowing and investment needs. Not only did they provide the real estate financing to construct our new medical office building and surgery center, their lockbox and remote deposit services make it easy to manage my cash flow on a daily basis. I focus on my patient's pain management, while Independent Bank focuses on my financial health. //

– Pain Management Physician - 4 locations

// When I decided to relocate my practice and my family to Central Texas last year, Independent Bank provided a comprehensive solution tailored to meet both my personal and business banking needs. Not only did their lending experts take care of my tenant finish-out loan, they helped me get new state-of-the-art equipment and financed our new home at a great rate. I see a bright future with Independent Bank! //

– Round Rock Ophthalmologist

// Thanks to Independent Bank, my practice is thriving. It all started with a new construction loan. Now, I do all of my banking with Independent Bank including credit lines, equipment loans, build-out loans and business and personal banking accounts. I've simplified my life, increased my operation efficiencies and improved my cash flow with remote deposit capture and other treasury management solutions. Their team of experts understand the medical profession and they always consider both my short-term and long-term needs. They even make house calls! //

– Round Rock Urologist

// My patients have distinct needs, so we treat each case individually to ensure the best results. Like our patients, our practice has special needs, and that's why Independent Bank has become our banking partner. They treat us like we treat our patients. They tailored specific financing for our new office building, including a line of credit and an equipment loan, along with a new business checking account and cash management services. This is definitely a banking relationship that's more than just skin deep. //

– Austin Dermatologist
